

I am writing in regards to LPFM. I am concerned that AIR 1 (a FM radio station that is often heard on FM translators) might be displaced by an LPFM station. AIR is vital to the local community as it provides a family friendly station with in my community. There are not many stations that we can turn on and know that we will find a positive message being played. AIR 1 also serves the community by reaching out to people in need and offering them council 24 hours a day. I believe that the service provided by AIR 1 is in the public interest and is unique to this station. It would be a grave disservice if it were to be taken over by yet another station with loose morals. It is a unique outlet for a positive outlook for life.
